Technologies Enterprises LLC*

---

To Whom It May Concern,

During his time with us, I have had the pleasure of working with Mr. Morales. During his internship, he has worked on various projects along with some clients' sites due to his advanced skills. He showed a very good understanding of design and the use of design tools to enhance websites. Mr. Morales consistently showed his dedication through his time spent at Ignite whether it was performing research, developing code, designing or assisting fellow interns. Showing great team working skills by helping take on our community project and contributing to its design. During the semester, he has been very open to learning new ways of programming and has shown great positional of becoming an outstanding developer. He has demonstrated a high level of understanding of web development and we are excited to see where his next step in life takes him.

We have thoroughly enjoyed our time with Mr. Morales both as a fellow developer but as a friend.

We are very happy to hear that Mr. Morales was offered a position as a web developer and that the skills he learned during his internship had a direct result on the offering of the position.

If you have any questions, I would be more than happy to answer any of them.
